

Dear Sir:

I am deaf, I have emotional problems with my pass away DAD and I use VRS interpreter and talked to my counselor and Crisis and discuss about my frustration and possible suicide and they discuss about my grief and help me a lot and if I use TDD relay service and it make me frustration how to explain my limit grammer or English . I could be suicide myself if I use tdd relay service but VRS save my life and discussed very smoothy and less misunderstand and help me grief better thru VRS so please do not destroy the VRS VP 100 please do not do that to me or to mental illness deaf patients thank you very much
